

WHAT DOES THE RED FLAG MEAN?

During a racing school, Control called for a "Red flag", one student continued around the track to the start-finish line, passing a number of Red flags on the way.

One of the instructors approached the student and proceeded to ask what the Red flag meant.

The student said "slow down or stop, whatever".

The instructor then told the student to get out of his vehicle.

When the student was out of his car, the instructor started hitting him repeatedly with a Red flag.

The instructor said "would you like me to slow down or stop?"
